About The Cameron Can Foundation

The Cameron Can Foundation was created in March 2011, inspired by now 9 year-old Riverside resident Cameron Dominick. While the Cameron Can Foundation no longer directly benefits Cameron, it does support other children in the Chicagoland area who are battling life-long neurological conditions, especially Hydrocephalus.

Since 2011, the Dominick Family have dedicated themselves to making good on a promise to pay it forward, and have raised more than \$400,000 for other families and children like their own. In 2016, our goal is to break the \$500,000 mark; in order to do this we are asking you to help us take the Cameron Can Foundation on the road. Rather than throwing one large event in Chicago, we are launching Cameron's Rockin' Roadtrip 2016, where our Cameron Can Rock Stars host their own events!
